

Communication

Date	07 July 2026
Team ID	XXXXXX
Project Name	OptiCrop – Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for successful team-based project development and demonstration. This document outlines the communication strategy followed by the OptiCrop team throughout planning, machine-learning development, Flask application integration, testing, documentation, and deployment, including how progress, issues, and feedback were managed.

S. No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp, Google Meet	Team	Discuss assigned tasks, development progress, and next actions
2	Progress Update	Weekly	Google Meet, GitHub	Team	Track dataset, model, Flask application, testing, and documentation progress
3	Issue / Bug Discussion	As Needed	WhatsApp, GitHub	Team	Resolve coding, model integration, testing, and deployment issues
4	Project Review	Bi-Weekly	Google Meet	Team	Review implementation progress and collect suggestions
5	Final Demo Rehearsal	Once	Google Meet	Team	Prepare and coordinate the final OptiCrop project demonstration
6	Documentation Review	As Needed	Google Docs	Team	Verify project documentation, technical details, and final submission files

Communication Challenges & Resolutions:

S. No	Challenge Faced	Resolution / Action Taken
1	Difficulty coordinating team schedules	Used WhatsApp for regular coordination and scheduled Google Meet discussions in advance
2	Model integration and application issues	Reviewed the Flask workflow, model path, input order, and prediction logic collaboratively
3	Testing and Render deployment challenges	Performed Playwright testing, reviewed dependency and Unicorn configuration, and verified the live deployment
